# Equipment Rental Fact Sheet

## Small Equipment

### Loppers and Saws

Use: The loppers and saws are for removal of buckthorn and other invasive species that out-compete beneficial native plants.

### Weed Wrenches

Use: The weed wrenches are for the removal of buckthorn at its roots. The wrench will allow for entire stump removal of buckthorn and any other invasive species.

### Hand Seeder

Use: The hand seeder works for seeding small areas of warm or cool season grass.

### Red Hand Seeder

Use: The red hand seeder works for seeding small areas of cool season grasses. It utilizes a mechanical handle.

---
